Following the adventures of Dinosaur Hideout and Dinosaur Breakout, twelve-year-old Daniel Bingham once again travels back to the time of dinosaurs to learn more about the prehistoric creatures he loves. This time he has an unexpected companion. In Dinosaur Hideout, Daniel and his neighbour, Ole Pederson, made a brilliant discovery: the fossil remains of a dinosaur, an Edmontosaurus they called Roxanne. In Dinosaur Breakout, Daniel had an even

more amazing adventure. He learned the secret of time travel to the world of dinosaurs: Triceratops, Brontosaurus, Tyrannosaurus Rex. A world of giant redwoods and dragonflies a metre wide.

Now, in Dinosaur Stakeout, Daniel decides to travel to the past one more time. He wants to find out if a dying female dinosaur he saw on his last trip is Roxanne, the fossil he and Pederson found in Book One. Daniel figures to go alone, but he's figured without Pederson and his friend Mildred Roost, another palaeontologist.

Mildred insists on coming with him and Daniel thinks it'll wreck everything. An old lady will just slow him down, and if she gets killed, he'll blame himself. But he's reckoned without a tough old bird with lots of tricks up her sleeve, tricks that could save both their lives.

Dinosaur Stakeout includes a glossary of names and technical terms and a book list kids can use to expand their knowledge of dinosaurs.
