México en la generación del desarrollo (Spanish Edition) Enrique de la Madrid Cordero

Nunca tan cercano como hoy

Prólogo Luis Videgaray Caso

"México cuenta con enormes fortalezas y ventajas comparativas que lo hacen uno de los países con mayor potencial de crecimiento en el siglo XXI. Además, nuestro país ha alcanzado logros fundamentales a lo largo de los años, como se ve claramente reflejado en los indicadores en materia de educación, salud, empleo, vivienda e infraestructura por sólo mencionar unos cuantos.

No obstante, el crecimiento económico de México en las últimas tres décadas ha sido inconstante y mediocre, principalmente si se considera nuestro potencial y la apremiante necesidad de sacar casi a la mitad de los mexicanos de la pobreza.

Son tres los elementos que han determinado el bajo nivel de crecimiento que presenta la economía mexicana: falta de penetración e inclusión financiera, deficiente nivel de competencia económica y bajo nivel de productividad. Estos elementos han ocasionado además que la creación y distribución de riqueza en nuestro país sea insuficiente y desigual.

Hoy, frente a un contexto internacional favorable y un proceso de reformas internas profundas, impulsadas por el presidente Enrique Peña Nieto dentro del Pacto por México, nuestro país cuenta con una oportunidad histórica para eliminar los obstáculos que tiene para crecer y aspirar a convertirse en desarrollado en esta generación."
