## Founders: A Novel of the Coming Collapse James Wesley Rawles

From the author of the instant *New York Times* bestseller *Survivors*, comes its follow-up: another lightening-paced thriller about survival in America after an apocalyptic socioeconomic crash.

The world as we know it is gone.

It's the near future, and thanks to a perfect storm of reckless banking practices, hyperinflation, a stock market gone mad, and the negligence of our elected officials, the entire social, political, and economic infrastructure of America has collapsed. Chaos reigns in the streets, medical treatment is no longer available, and a silent coup has placed a dangerous group of men at the helm of a false government. America's fate is in the hands of those few individuals who have the survival skills, the faith, and the forethought to return this country to the state its founding fathers intended.
