## **Information and Communication Technologies in Tourism 1999: Proceedings of the International Conference in Innsbruck, Austria, 1999 (Springer Computer Science)**

During the last couple of years we learned that information and communication technologies have to be seen as key factors for the success in various industries. Especially in tourism it became evident, that missing the developments in this sector could not only be fatal for the unfolding of the businesses, but also unrenouncable in order to withstand in competition. The objective of ENTER is to show the chance that information technology offers for all participants in the touristic competition to act successfully in permanently changing information environments. It reflects the important role of information technologies in this field. Within the last six years ENTER united various experts - practitioners as well as researchers - to exchange their experiences, ideas and visions in the sector of tourism and information technology. The conferences scope is to provide an international platform to discuss the topical situation and future trends, and the possibilities to shape the own strategies. The various points of view of all the participants in workshops, reports and discussions always lead to most interesting perceptions.
