Categorical Data Analysis With Sas and Spss Applications

Bayo Lawal, H. Bayo Lawal

Categorical Data Analysis With Sas and Spss Applications Bayo Lawal, H. Bayo Lawal

This book covers the fundamental aspects of categorical data analysis with an emphasis on how to implement the models used in the book using SAS and SPSS. This is accomplished through the frequent use of examples, with relevant codes and instructions, that are closely related to the problems in the text. Concepts are explained in detail so that students can reproduce similar results on their own. Beginning with chapter two, exercises at the end of each chapter further strengthen students' understanding of the concepts by requiring them to apply some of the ideas expressed in the text in a more advanced capacity. Most of these exercises require intensive use of PC-based statistical software. Numerous tables with results of analyses, including interpretations of the results, further strengthen students' understanding of the material.

Categorical Data Analysis With SAS(R) and SPSS Applications features:

*detailed programs and outputs of all examples illustrated in the book using SAS(R) 8.02 and SPSS on the book's CD;

*detailed coverage of topics often ignored in other books, such as one-way classification (ch. 3), the analysis of doubly classified data (ch. 11), and generalized estimating equations (ch. 12); and

*coverage of SAS(R) PROC FREQ, GENMOD, LOGISTIC, PROBIT, and CATMOD, as well as SPSS PROC CROSSTABS, GENLOG, LOGLINEAR, PROBIT, LOGISTIC, NUMREG, and PLUM.

This book is ideal for upper-level undergraduate or graduate-level courses on categorical data analysis taught in departments of biostatistics, statistics, epidemiology, psychology, sociology, political science, and education. A prerequisite of one year of calculus and statistics is recommended. The book has been class tested by graduate students in the department of biometry and epidemiology at the Medical University of South Carolina.

From reader reviews:

William Deck:

This book untitled Categorical Data Analysis With Sas and Spss Applications to be one of several books that best seller in this year, that is because when you read this book you can get a lot of benefit onto it. You will easily to buy this book in the book retail store or you can order it via online. The publisher on this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Smart phone. So there is no reason to you to past this publication from your list.

Joyce Jacobs:

The particular book Categorical Data Analysis With Sas and Spss Applications will bring you to definitely the new experience of reading a book. The author style to explain the idea is very unique. In case you try to find new book to study, this book very appropriate to you. The book Categorical Data Analysis With Sas and Spss Applications is much recommended to you to read. You can also get the e-book from official web site, so you can quickly to read the book.

Aaron Marks:

The reason why? Because this Categorical Data Analysis With Sas and Spss Applications is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will zap you with the secret the item inside. Reading this book adjacent to it was fantastic author who have write the book in such wonderful way makes the content interior easier to understand, entertaining approach but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of positive aspects than the other book have such as help improving your expertise and your critical thinking method. So , still want to hold off having that book? If I had been you I will go to the reserve store hurriedly.

Nancy Collins:

As a pupil exactly feel bored to be able to reading. If their teacher expected them to go to the library or to make summary for some guide, they are complained. Just small students that has reading's heart or real their passion. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring and can't see colorful images on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Categorical Data Analysis With Sas and Spss Applications can make you truly feel more interested to read.
