The Theory of the Quantum World

David Gross

The Theory of the Quantum World David Gross

Ever since 1911, the Solvay Conferences have shaped modern physics. The 25th edition held in October 2011 in Brussels and chaired by David Gross continued this tradition and celebrated the first centennial of this illustrious series of conferences. The development and applications of quantum mechanics have always been the main threads in the history of the Solvay Conferences, hence the 25th Solvay conference gathered many of the leading figures working on a wide variety of profound problems in physics where quantum mechanical effects play a central role. The conference addressed some of the most pressing open questions in the field of physics.

The proceedings contain the “rapporteur talks” which give a broad overview with unique insights by distinguished and renowned scientists. These lectures cover the seven sessions: “History and Reflections”, “Foundations of Quantum Mechanics and Quantum Computation”, “Control of Quantum Systems”, “Quantum Condensed Matter”, “Particles and Fields”, “Quantum Gravity and String Theory” and it ended with a general discussion attempting to arrive at a synthesis.

In the Solvay tradition, the proceedings also include the prepared comments to the rapporteur talks. The discussions among the participants — some of which quite lively and involving dramatically divergent points of view — have been carefully edited and are reproduced in full.

Contents:

- History and Reflections (*M Henneaux, J Heilbron and M Gell-Mann*)
- Foundations of Quantum Mechanics and Quantum Computation (*A Aspect, A Leggett and J Preskill*)
- Control of Quantum Systems (*P Zoller, I Cirac and S Girvin*)
- Quantum Condensed Matter (*B Halperin and S Sachdev*)
- Particles and Fields (*H Georgi and F Wilczek*)
- Quantum Gravity and String Theory (*J Polchinski, J Maldacena and A Guth*)
- General Discussion and Conclusions (*D Gross, A Aspect, P Zoller, B Halperin, H Georgi and J Polchinski*)

Readership: Graduate students and researchers in physics.

From reader reviews:

Dominic Loflin:

Have you spare time for just a day? What do you do when you have considerably more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their own spare time to take a walk, shopping, or went to often the Mall. How about open as well as read a book entitled The Theory of the Quantum World? Maybe it is being best activity for you. You already know beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with the opinion or you have various other opinion?

Deborah Rost:

The Theory of the Quantum World can be one of your beginner books that are good idea. Most of us recommend that straight away because this e-book has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to set every word into satisfaction arrangement in writing The Theory of the Quantum World nevertheless doesn't forget the main place, giving the reader the hottest along with based confirm resource information that maybe you can be one among it. This great information may drawn you into brand new stage of crucial pondering.

Mae Bushee:

Within this era which is the greater individual or who has ability in doing something more are more special than other. Do you want to become certainly one of it? It is just simple method to have that. What you need to do is just spending your time not much but quite enough to get a look at some books. Among the books in the top list in your reading list is definitely The Theory of the Quantum World. This book that is qualified as The Hungry Inclines can get you closer in growing to be precious person. By looking upward and review this publication you can get many advantages.

Beatrice Blakely:

Publication is one of source of understanding. We can add our understanding from it. Not only for students but also native or citizen require book to know the revise information of year in order to year. As we know those books have many advantages. Beside we add our knowledge, could also bring us to around the world. With the book The Theory of the Quantum World we can acquire more advantage. Don't you to be creative people? Being creative person must like to read a book. Merely choose the best book that ideal with your aim. Don't end up being doubt to change your life at this time book The Theory of the Quantum World. You can more appealing than now.
