Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) Eckhard Meinrenken

This monograph provides an introduction to the theory of Clifford algebras, with an emphasis on its connections with the theory of Lie groups and Lie algebras. The book starts with a detailed presentation of the main results on symmetric bilinear forms and Clifford algebras. It develops the spin groups and the spin representation, culminating in Cartan's famous triality automorphism for the group $\text{Spin}(8)$. The discussion of enveloping algebras includes a presentation of Petracci's proof of the Poincaré–Birkhoff–Witt theorem.

This is followed by discussions of Weil algebras, Chern–Weil theory, the quantum Weil algebra, and the cubic Dirac operator. The applications to Lie theory include Duflo's theorem for the case of quadratic Lie algebras, multiplets of representations, and Dirac induction. The last part of the book is an account of Kostant's structure theory of the Clifford algebra over a semisimple Lie algebra. It describes his "Clifford algebra analogue" of the Hopf–Koszul–Samelson theorem, and explains his fascinating conjecture relating the Harish-Chandra projection for Clifford algebras to the principal $\mathfrak{sl}(2)$ subalgebra.

Aside from these beautiful applications, the book will serve as a convenient and up-to-date reference for background material from Clifford theory, relevant for students and researchers in mathematics and physics.

From reader reviews:

Sarah Alexander:

Have you spare time for a day? What do you do when you have much more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent all their spare time to take a walk, shopping, or went to typically the Mall. How about open or maybe read a book entitled Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics)? Maybe it is being best activity for you. You recognize beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have other opinion?

Daniel Ellis:

The book Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) make you feel enjoy for your spare time. You need to use to make your capable more increase. Book can to get your best friend when you getting pressure or having big problem with the subject. If you can make reading a book Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) to get your habit, you can get far more advantages, like add your own capable, increase your knowledge about a few or all subjects. You can know everything if you like start and read a guide Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics). Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this e-book?

Debbie Gagnon:

Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) can be one of your basic books that are good idea. We all recommend that straight away because this publication has good vocabulary that can increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The article writer giving his/her effort to get every word into joy arrangement in writing Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) although doesn't forget the main stage, giving the reader the hottest as well as based confirm resource data that maybe you can be among it. This great information can drawn you into brand new stage of crucial thinking.

Linda Gordon:

Is it a person who having spare time and then spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This Clifford Algebras and Lie Theory: 58 (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics)

can be the respond to, oh how comes? The new book you know. You are so out of date, spending your time by reading in this new era is common not a geek activity. So what these ebooks have than the others?
