Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) S P Novikov, I A Taimanov, V P Golubyatnikov

The final volume of the three-volume edition, this book features classical papers on algebraic and differential topology published in the 1950s–1960s. The partition of these papers among the volumes is rather conditional. The original methods and constructions from these works are properly documented for the first time in this book. No existing book covers the beautiful ensemble of methods created in topology starting from approximately 1950. That is, from Serre's celebrated "singular homologies of fiber spaces."

Contents:

- Singular Homology of Fiber Spaces *(J-P Serre)*
- Homotopy Groups and Classes of Abelian Groups *(J-P Serre)*
- Cohomology Modulo 2 of Eilenberg–MacLane Complexes *(J-P Serre)*
- On Cohomology of Principal Fiber Bundles and Homogeneous Spaces of Compact Lie Groups *(A Borel)*
- Cohomology Mod 2 of Some Homogeneous Spaces *(A Borel)*
- The Steenrod Algebra and Its Dual *(J Milnor)*
- On the Structure and Applications of the Steenrod Algebra *(J F Adams)*
- Vector Bundles and Homogeneous Spaces *(M F Atiyah and F Hirzebruch)*
- The Methods of Algebraic Topology from Viewpoint of Cobordism Theory *(S P Novikov)*

Readership: Researchers in algebraic topology, its applications, and history of topology.

From reader reviews:

Ronald Ybarra:

Here thing why this particular Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) are different and dependable to be yours. First of all examining a book is good but it depends in the content than it which is the content is as delightful as food or not. Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) giving you information deeper and in different ways, you can find any guide out there but there is no book that similar with Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything). It gives you thrill looking at journey, its open up your personal eyes about the thing that will happened in the world which is maybe can be happened around you. It is possible to bring everywhere like in park, café, or even in your method home by train. Should you be having difficulties in bringing the paper book maybe the form of Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) in e-book can be your alternate.

Seth Sutherland:

Do you one of people who can't read pleasurable if the sentence chained from the straightway, hold on guys this aren't like that. This Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) book is readable by you who hate those perfect word style. You will find the info here are arrange for enjoyable examining experience without leaving perhaps decrease the knowledge that want to give to you. The writer connected with Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) content conveys prospect easily to understand by a lot of people. The printed and e-book are not different in the information but it just different by means of it. So , do you even now thinking Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) is not loveable to be your top collection reading book?

Ann McLemore:

What is your hobby? Have you heard this question when you got students? We believe that that problem was given by teacher on their students. Many kinds of hobby, All people has different hobby. And you know that little person similar to reading or as studying become their hobby. You need to understand that reading is very important and also book as to be the point. Book is important thing to add you knowledge, except your current teacher or lecturer. You find good news or update about something by book. Different categories of books that can you take to be your object. One of them is this Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything).

Jeff Jones:

Reading a reserve make you to get more knowledge from that. You can take knowledge and information from a book. Book is created or printed or illustrated from each source which filled update of news. With this

modern era like at this point, many ways to get information are available for anyone. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you ready to spend your spare time to spread out your book? Or just seeking the Topological Library:Part 3: Spectral Sequences in Topology: 50 (Series on Knots and Everything) when you needed it?
