International Trade and Labor Standards: A Proposal for Linkage

Sanjay Reddy, Christian Barry

International Trade and Labor Standards: A Proposal for Linkage Sanjay Reddy, Christian Barry

Progressive governments in poor countries fear that if they undertake measures to enhance real wages and working conditions, rising labor costs would cause wealthier countries to import from and invest elsewhere. Yet if the world trading system were designed to facilitate or even reward measures to promote labor standards, poor countries could undertake them without fear.

In this book, Christian Barry and Sanjay G. Reddy propose ways in which the international trading system can support poor countries in promoting the well-being of their peoples. Reforms to the trading system can lessen the collective-action problem among poor countries, increasing their freedom to pursue policy that better serves the interests of their people. Incorporating the right kind of linkage between trading opportunities and the promotion of labor standards could empower countries, allowing them greater effective sovereignty and enabling them to improve the circumstances of the less advantaged.

Barry and Reddy demonstrate how linkage can be made acceptable to all players, and they carefully defend these ideas against those who might initially disagree. Their volume is accessible to general readers but draws on sophisticated economic and philosophical arguments and includes responses from leading labor activists, economists, and philosophers, including Kyle Bagwell, Robert Goodin, Rohini Hensman, and Roberto Mangabeira Unger.
