Bertrand Russell

ABC of Relativity (Routledge Classics) Bertrand Russell

First published in 1925, Bertrand Russell's *ABC of Relativity* was considered a masterwork of its time, contributing significantly to the mass popularisation of science. Authoritative and accessible, it provides a remarkable introductory guide to Einstein's theory of Relativity to a general readership. One of the most definitive reference guides of its kind, and written by one of the twentieth century's most influential philosophers, *ABC of Relativity* continues to be as relevant today as it was on first publication.
