## Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic)

The twenty-six papers in this volume reflect the wide and still expanding range of Anil Nerode's work. A conference on Logical Methods was held in honor of Nerode's sixtieth birthday (4 June 1992) at the Mathematical Sciences Institute, Cornell University, 1-3 June 1992. Some of the conference papers are here, but others are from students, co-workers and other colleagues. The intention of the conference was to look forward, and to see the directions currently being pursued, in the development of work by, or with, Nerode. Here is a brief summary of the contents of this book. We give a retrospective view of Nerode's work. A number of specific areas are readily discerned: recursive equivalence types, recursive algebra and model theory, the theory of Turing degrees and r.e. sets, polynomial-time computability and computer science. Nerode began with automata theory and has also taken a keen interest in the history of mathematics. All these areas are represented. The one area missing is Nerode's applied mathematical work relating to the environment. Kozen's paper builds on Nerode's early work on automata. Recursive equivalence types are covered by Dekker and Barback, the latter using directly a fundamental metatheorem of Nerode. Recursive algebra is treated by Ge & Richards (group representations). Recursive model theory is the subject of papers by Hird, Moses, and Khoussainov & Dadajanov, while a combinatorial problem in recursive model theory is discussed in Cherlin & Martin's paper. Cenzer presents a paper on recursive dynamics.

### **From reader reviews:**

#### **Jose York:**

Hey guys, do you desires to finds a new book you just read? May be the book with the concept Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic) suitable to you? The actual book was written by famous writer in this era. The actual book untitled Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic) is one of several books in which everyone read now. This kind of book was inspired many men and women in the world. When you read this publication you will enter the new dimensions that you ever know before. The author explained their strategy in the simple way, so all of people can easily to comprehend the core of this guide. This book will give you a wide range of information about this world now. So that you can see the represented of the world with this book.

#### **Ellen Jorge:**

Playing with family in a very park, coming to see the water world or hanging out with buddies is thing that usually you may have done when you have spare time, in that case why you don't try point that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic), you can enjoy both. It is fine combination right, you still want to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't understand it, oh come on its referred to as reading friends.

#### **Diane Welton:**

Do you have something that that suits you such as book? The guide lovers usually prefer to choose book like comic, short story and the biggest an example may be novel. Now, why not trying Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic) that give your satisfaction preference will be satisfied by means of reading this book. Reading addiction all over the world can be said as the opportunity for people to know world considerably better then how they react when it comes to the world. It can't be stated constantly that reading practice only for the geeky man or woman but for all of you who wants to possibly be success person. So , for every you who want to start looking at as your good habit, it is possible to pick Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic) become your current starter.

#### **Jenna Quintana:**

As we know that book is vital thing to add our information for everything. By a guide we can know everything we wish. A book is a list of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This publication Logical Methods: In Honor of Anil Nerode's Sixtieth Birthday (Progress in Computer Science and Applied Logic) was filled in relation to science. Spend your time to add

your knowledge about your scientific research competence. Some people has various feel when they reading a new book. If you know how big benefit from a book, you can experience enjoy to read a e-book. In the modern era like currently, many ways to get book that you just wanted.
