**Physical Universe** Konrad Krauskopf, Arthur Beiser

**Note :** *This book does not include access code.*

*The Physical Universe*, 15e by Konrad Krauskopf and Arthur Beiser is an outstanding text with a long history that has been updated and given a fresh look. This edition is also accompanied by a strong media component with the Connect online homework system, personal response system ("clicker") questions, more extensive online quizzing, and PowerPoint lectures. Aimed at presenting the essentials of physics, chemistry, earth science, and astronomy in a clear, easy-to-understand way, *The Physical Universe* shows students how science works, how scientists approach problems, and why science constantly evolves in its search for understanding. The text can also be packaged with its long time companion student study guide, which includes a review of chapter terms and concepts; self quizzing for extra practice; and additional solved problems.

### **From reader reviews:**

#### **Rose Cotner:**

The book Physical Universe can give more knowledge and information about everything you want. Why must we leave a good thing like a book Physical Universe? Wide variety you have a different opinion about reserve. But one aim in which book can give many details for us. It is absolutely right. Right now, try to closer with your book. Knowledge or details that you take for that, it is possible to give for each other; you can share all of these. Book Physical Universe has simple shape however you know: it has great and massive function for you. You can look the enormous world by open and read a reserve. So it is very wonderful.

#### **Dolores Wade:**

As people who live in the actual modest era should be up-date about what going on or info even knowledge to make these keep up with the era which can be always change and move forward. Some of you maybe will probably update themselves by examining books. It is a good choice in your case but the problems coming to anyone is you don't know what kind you should start with. This Physical Universe is our recommendation to help you keep up with the world. Why, because book serves what you want and want in this era.

#### **Michele Brown:**

Information is provisions for people to get better life, information these days can get by anyone in everywhere. The information can be a knowledge or any news even a concern. What people must be consider any time those information which is within the former life are difficult to be find than now's taking seriously which one is suitable to believe or which one the actual resource are convinced. If you have the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen in you if you take Physical Universe as your daily resource information.

#### **Kent Moore:**
