## Stay the Course: European Unity and Atlantic Solidarity (Washington Papers) Simon Serfaty

Serfaty argues that U.S. interests in Europe have become so significant as to create an increasingly common Euro-Atlantic space from which disentanglement is no longer possible. The reality of this space does not mean an Americanization of Europe any more than it does the Europeanization of America. Serfaty points to the ways the United States is connected to Europe, the areas of friction, and the outlook for future common interests and joint approaches to challenges throughout the world.

By pointing to the ways the United States is connected to Europe, by examining the areas of friction, and projecting future common interests and joint approaches to challenges throughout the world, Serfaty shows why staying the course is vital to European as well as American interests. A significant analysis for scholars, researchers, and policy makers concerned with contemporary American and European foreign policy and relations.
